

**COMPANY OVERVIEW**

Kortex Dynamics delivers mission-ready cloud infrastructure for federal agencies and defense organizations. We bring modern cloud engineering into secure, regulated, and mission-critical environments. Specializing in GovCloud deployments, air-gapped architectures, and continuous compliance across NIST, FedRAMP, and CMMC frameworks.

**CORE CAPABILITIES**

- GovCloud Deployments — Architecture, migration, and operations for AWS GovCloud and Azure Government with ITAR/EAR-aware controls.
- Air-Gapped Environments — Fully disconnected infrastructure for classified workloads, including offline CI/CD and secure software delivery.
- NIST 800-53 Compliance — Implementation of security controls with automated compliance monitoring and continuous authorization.
- FedRAMP Authorization — End-to-end support including boundary definition, SSP documentation, POA&M management, and continuous monitoring.
- CMMC 2.0 Readiness — Assessment readiness and implementation for CMMC 2.0 Levels 1 through 3.
- SOC 2 Type II — Continuous compliance monitoring, evidence collection, and control implementation across cloud environments.

<b>CERTIFICATIONS</b>	
NIST 800-53	FedRAMP Support
CMMC 2.0	SOC 2 Type II
ISO 27001	TS/SCI Clearable

<b>NAICS CODES</b>	<b>CONTRACT VEHICLES</b>
541512 Computer Systems Design Services	GSA MAS (Multiple Award Schedule)
541511 Custom Computer Programming	CIO-SP3 (Subcontractor)
541519 Other Computer Related Services	SEWP V (Subcontractor)
518210 Computing Infrastructure Providers	Open Market / Direct Awards

**CLEARANCE**

Facility Clearance (FCL)

Not currently held, available through teaming arrangements.

**PERSONNEL CLEARANCE**

Key personnel cleared or clearable to Top Secret / SCI

**BUSINESS CLASSIFICATION**

Small Business
